

TACC were delighted to be able to donate £5000 to the Kids Care charity in relation to the Belgium vs Scotland match in Brussels on Tuesday 11th June 2019.

The group are developing a sensory garden adjacent to the Queen Fabiola Children's Hospital.

This will be significantly therapeutic for the children who are treated at the hospital for just about all physical, medical and mental conditions.

Well done to Philip and Nikla for being so inspirational in leading the garden's development.

Many thanks to the TACC supporters who attended the donation, especially the pipers who kept the children entertained.

And many thanks to all TACC supporters who made this possible - Supporting Scotland, Supporting Children.
